Transforming economic and organizational models

We invite researchers and professionals to explore how economic and organizational models evolve in a changing institutional and technological landscape.

About STRATEGICA

The STRATEGICA International Conference is organized by the Faculty of Management (SNSPA), in partnership with the National Bank of Romania and the Romanian Academic Society of Management (SAMRO). Since its first edition, STRATEGICA has become a meeting point for scholars interested in the evolution of economic and organizational systems.

Strategica 2026 welcomes submissions aligned with its three thematic pillars:

Social & economic alternatives

Emerging models for social well-being, sustainability, and inclusive development.

Technology, markets & organizational performance

Digital transformation, market behavior, knowledge systems, and performance drivers

Contributions addressing human dynamics – leadership, work practices, well-being, ethics, and stakeholder engagement – are welcome across all three pillars.
